

### LEVEL 2 OVERVIEW

Within Level 2 we would expect to see increased incidence of the virus, with multiple clusters and increased community transmission. The Level 2 measures would be intended to be in place for relatively short periods (2-4 weeks), and only for as long as required to get the virus down to a low, sustainable level.

Level 2 permits both youth and adult rugby continue up to modified contact training, with all formats of touch rugby also permitted. At this stage, unrestricted full contact training and matches are not permitted (all age groups) until further notice.
